Adaptors Blocks

APPLE

	None Required	Apple	iPhone G1& G2. Apple iPod range	Use either Mono or Stereo MusicLink
	iPhones will operate with the MusicLink or the MusicLoop. In this mode the audio will be transmitted to the hooks (loop) and the internal microphone of the iPhone will remain active.		All iPhones have a 3.5mm jack plug designed to function with standard headphones and the MusicLink. To use the MusicLink during phone conversations keep the MusicLink in place and use the phone by holding it about 200mm in front of your mouth. If you hear any buzzing just position the phone until it stops.	

BLACKBERRY

	Blackberry All models with 2.5mm (small)	7100t 7100v 7100x 7230 7290 7730		No Adaptor Required for T-Link
	Blackberry All models with 3.5mm (large) connector	8110 8120 8130 8220 8300 8310 8330 8320 8900 9000 9530		
	These Blackberry phones have a 3.5mm jack plug designed to function with standard headphones and the MusicLink. To use the MusicLink during phone conversations keep the MusicLink in place and use the phone by holding it about 200mm in front of your mouth. If you hear any buzzing just position the phone until it stops.

UNIVERSAL 2.5mm

SC1487

UNIVERSAL 2.5mm Jack to MONO RETRACTACLE 3.5mm Jack

Will fit all phones with a 2.5mm connector (listed phones are shown as "No Adaptor Required" on this list). This includes all Blackberry models with a 2.5mm jack connector.

£8.00

£4.00

Adaptor with mic and answer button. Stereo adaptor with mic and answer button. Hearing aid users mono (SC2002) or (SC2014) dual MusicLink with this adaptor. Music playback with this model will be MONO only. The MusicLoop (SC1751) can also be used.

BLUETOOTH SOLUTIONS

Bluetooth headset dongles are a neat and inexpensive unit ideal for use with Bluetooth enabled mobile phones, iPods or MP3 players. For mobile phones use a MusicLink to provide the same functionality as the T-Link; a microphone is built into the device. This will also work well with MicroBuds and regular stereo headphones. We have worked with Jabra devices in the past with good success; make sure you purchase a model with an external 3.5mm headset connector.

If an adaptor block is not shown, please contact Sensorcom. Please note that model numbers differ from country to country for the same phone.

Warranty information: T-Link and Music-Link products are guaranteed for a period of 1 year to cover manufacturing faults. Damage caused by sweat, misuse or incorrect connection is not covered. This list was created and is as accurate as is possible within this dynamic product type.
